

Georgetown & Scott County Museum

TORNADO NEWSLETTER

IN PREPARATION

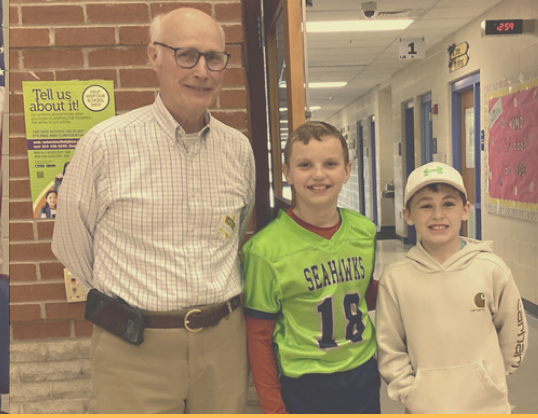

In April the Museum will be unveiling a new exhibit to commemorate the 50th anniversary of the 1974 tornado that tore through Stamping Ground. To prepare for this exhibit the Museum has been working in co-ordination with Stamping Ground Elementary to host some preview events that will stir up some memories about that fateful time.

Stamping Ground Student Interviews

Stamping Ground Elementary's students have been busy! To kick off their projects, the Stamping Ground 4th graders have been conducting interviews with members of the community who experienced the 1974 Super Outbreak. With these interviews the students will create projects that will be on display during the soft opening of the joint exhibit with the GSC-Museum on Tuesday, March 26th from 5-7pm at Stamping Ground Elementary.

Thank you to all our Friends of the Museum who interviewed with our 4th grade friends.

Chris Johnson's Visit

Stamping Ground Elementary Librarian, Mrs. Whitney Sosbe, welcomed Chris Johnson, FOX 56 Meteorologist, to speak with third and fourth graders as a preliminary event for the Museum's upcoming exhibit. The students learned some general weather facts and of course information about the 1974 Super Outbreak of Tornadoes. Third grade students have used what they learned from Mr. Johnson to create projects related to weather and the Super Outbreak. They will display and discuss these projects at the Stamping Ground Elementary reception on Tuesday, March 26th.
